ABOUT ME

Computer Science Engineering student passionate about AI and full-stack development, with hands-on experience in Python, LLMs, RAG, React.js, Node.js, and REST APIs. Passionate about building intelligent and user-focused applications.

TECHNICAL SKILLS

Languages: C, C++, Python, JavaScript, HTML, CSS, SQL, Kotlin

Technologies & Frameworks: React.js, Node.js, Express.js, Vite, PostgreSQL, MySQL, REST APIs, LLMs, RAG, PyQt5

Developer Tools: VS Code, Git, GitHub, Vercel, Postman, Android Studio

PROJECTS

NAYIDISHA | React, Node.js, Express, PostgreSQL, ESP32, Vercel

2026 – Current

- Developed a full-stack platform for SAMA Foundation to support care management, progress tracking, and personalized education.
- Built secure REST APIs with PostgreSQL and RBAC for parents, caretakers, and administrators.
- Integrated ESP32-based IoT monitoring with environmental data for adaptive learning support.

HERMES | Python, PyQt5, Groq API, ChromaDB, PyAutoGUI, SQLite

2026 - Current

- Developed HERMES, a Python desktop assistant using PyQt5 for workflow and GUI automation.
- Integrated ChromaDB, and SQLite for intelligent task processing, semantic memory, and context-aware responses with persistent data storage.
- Added screen analysis, speech recognition, web automation, and real-time monitoring features.

Hearing Aid Pro | Kotlin, Android SDK, Drizzle ORM, XML, SharedPreferences, Custom Canvas

2026 - Current

- Developed a low-latency Android hearing assistant using Kotlin and native audio APIs for real-time audio processing.
- Implemented DSP-based noise cancellation and adaptive audio filtering for enhanced hearing.
- Added real-time audio visualization and personalized hearing profiles with local storage.

HireSphere: | React, Node.js, Express, PostgreSQL, Drizzle ORM, Tailwind CSS, Zustand

2026 - Current

- Architected a full-stack campus placement platform for student portfolios, and placement analytics.
- Developed secure REST APIs with Node.js and Express, using Neon PostgreSQL, Drizzle ORM, JWT authentication, and RBAC.
- Built dashboards in React and Tailwind CSS with ATS resume screening and placement analytics.

EDUCATION

Atria Institute of Technology

Department of Computer Science and Engineering | CGPA: 8.29

Bengaluru, Karnataka

Expected 2028

ADDITIONAL INFORMATION

- Languages:** English, Hindi, Kannada, Tulu
- Awards/Activities:** New Horizon Ideathon 2025: Presented ArgiConnect, an innovative concept.
- SIH Internals: Built a Smart Student Hub app to centralize student resources and engagement.
- Hearing Aid Project: Leading the development of an Android-based hearing aid solution in collaboration with Chandrashekhar Institute of Speech and Hearing.
